AUTUMN/WINTER 1993

Welcome to your guide to great value

We have compiled the Argos catalogue with you in mind, to offer you a great way of shopping for a huge range of quality products, at prices you will find hard to beat.

This Superstore catalogue contains all the products which are available from our traditional Argos stores, plus an additional 2600 lines which are exclusive to Superstores.
To make it easier for you to find what you want, we have Traditional and Superstore ranges combined together, so you can see the full range Argos has to offer.

S SUPERSTORES ONLY 1 S £299.00 **Products marked by these symbols are exclusive to our Superstores, and are not available from Traditional Argos stores. Please see the back of the catalogue for your nearest Argos Superstore.**

How to shop

Shopping is simple:

1 Write the catalogue number and the quantity of the goods you require on a selection form (there are some included in this catalogue as well as in-store).

2 Take the form to a service point.

3 Whilst you are paying, your goods will be brought to the collection counter ready for you to collect.

Some of our larger items can also be ordered by telephone and delivered to your door, please see page 3 for details.

Ways to pay

You can pay for your purchase with cash or any one of the credit or debit cards shown. You can also pay by cheque and if you have a valid cheque card, we will give you immediate clearance on cheques up to £500 (subject to status, you may also need additional identification).

You can also pay by redeeming your Premier Points (see page 4)

Overseas visitors may qualify for **Tax Free shopping**, saving on the cost of your purchase. Customers from countries within the European Community cannot reclaim **VAT**. Please ask in-store for details.

Up to £1,000 instant credit*

Please ask in-store for details.
*Subject to status. Available to most adults.
Argos is a licensed credit broker.

Argos personal account

There's now more than ever to choose from at Argos. With our **Personal Account** you can afford what you want now, and then spread your payments over time. Please ask in-store for details.
APR 29.8%† (Subject to variation).
†When payment is made by Direct Debit.
A written quotation is available on request.

Delivery Services

To make shopping even easier, Argos offers two delivery services

Argos DIRECT Free home delivery service

- **Free delivery anywhere in Great Britain (including Northern Ireland)**
- **Delivery normally within 14 days**

For your convenience, items which are too large or heavy to stock in our stores, will be delivered direct to your home free of charge. These items are marked by the red lorry symbol and are not available for collection from any of our stores.

As well as being able to order any Argos Direct item at the Customer Services area in our stores, you can also phone our ARGOS DIRECT FREE Linkline ordering number. You can call between 8 am and 10 pm, 7 days a week, giving your order and credit card details.

Order in-store or order by phone 0800 555899

Once you place an order, we will contact you to arrange delivery. Delivery will normally be within 14 days, unless otherwise indicated in the item description or at time of ordering. To ensure delivery before Christmas, please place your order before 7th December 1993.

Please note: The 0800 Linkline number can only be used for placing orders for items marked with the red lorry symbol. When ordering you will be given an alternative number for any other queries.

For some items, we offer a fast delivery service of 3 working days from the date of order. These items are marked with the 3 day red lorry symbol. To ensure delivery before Christmas with this 3 day service please place your order before 17th December 1993.

Our free home delivery on selected computers also includes unpacking and setting up in the home. See page 466 for details.

Free home delivery on selected computers

Superstore delivery service

- **Deliveries anywhere within 20 miles of any Argos Superstore**
- **Order by telephone or in-store**
- **Service is available on any catalogue items, except those delivered free by Argos Direct**
- **One small delivery charge covers as many items as you wish to order**

You can order by telephone during normal working hours - just giving your order and credit card details. Or, you can arrange delivery when you order in-store. See the back of the catalogue for your nearest Argos Superstore and telephone number.

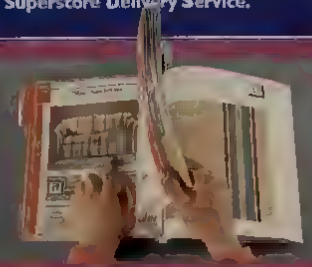

As an extension to our Superstore Delivery Service, we also offer Free Delivery and Installation on all large screen televisions (20 inch and over) and VCRs, from any Argos Superstore.

Installation is to an existing electrical socket and adjacent aerial point. This offer applies within a 20 mile radius of any Superstore (mainland only).

You can order at your nearest Superstore or by telephone, ask for our Superstore Delivery Service.

Upholstered Furniture Selection Centre

To ensure that the item you order is exactly what you want, please see our Upholstered Furniture Selection Centre in your local Argos store for fabric samples used in the manufacture of our furniture and garden furniture, as well as product specification.

CHRISTMAS DECORATIONS

Committed to quality and safety

We want you, our Customer, to have total confidence that every item you purchase from Argos is SAFE, RELIABLE and of the highest QUALITY.

We have therefore developed a large Quality Control team, fully dedicated to fulfilling such requirements, and have many products tested at independent laboratories.

All our goods, especially nursery and toy products, are subject to strict safety regulations and we take every care to ensure that all our products are safe.

The lion mark is a symbol of toy safety and all Argos toys are tested for compliance with exactly the same approved safety standard.

The "CE" mark, which appears on all Argos toys, is part of a campaign by the EC to improve safety standards across Europe.

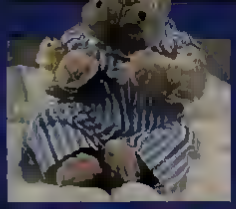

All our upholstered furniture conforms to match and cigarette ignition tests.

Most of our electrical products now come with pre-fitted plugs. Look for the fitted plug symbol.

PLEASE NOTE:

- Some of the goods which are shown in the catalogue may vary slightly if a supplier has changed or altered their specifications after the catalogue has been printed. If this should happen, we will try to help by offering you alternative goods of a similar specification and value to your original choice.
- Please check the in-store catalogues before ordering
- Under exceptional circumstances, we may have to make adjustments to our prices stated in the catalogue (which include VAT at 17½%).
- All items are subject to availability

The following guarantees do not affect your statutory rights

The Argos promise

If you change your mind and decide that a product you have bought does not meet your exact requirements we offer you the opportunity of returning it within 16 days of purchase, for a full refund or exchange. We simply ask that it is returned in its original and unspoilt condition, with its original wrapping and your receipt. Please note this promise does not apply to earrings for pierced ears, food products, camcorders, pre-recorded music or videos, video game software, fresh flowers and Christmas decorations.

After sales care

Making sure that you are happy with your purchases both when you buy them, and after you have taken them home, is very important to us.

- If a product develops a fault, simply return it within 30 days of purchase and we will offer you an exchange or a full refund.
- We will provide a free-of-charge repair facility, normally within 16 days, on products which develop a fault and are returned to a store more than 30 days after purchase with your receipt, but within 12 months. Look out for the repair signs showing jewellery repair, and service in home or on site.

- Any product which develops a fault and has a manufacturer's guarantee beyond 12 months will be repaired in accordance with the terms of that guarantee.
- Many electrical appliances can also be serviced in your home, please ask in-store for details.

Argos supports the guidelines for guarantees set by the British Retail Consortium.

SCIENTIFIC CALCULATORS
All scientific calculators have an LCD display. Mathematic functions include percentage, square root and memory. Algebraic logic is used for computation.
NB. All Casio scientific calculators are capable of carrying out standard deviation statistical calculations.

PROGRAMMABLE
These calculators, in addition to being programmable, offer many scientific functions. Item nos 23-25 feature a 16 character by 8 line display and item no 26 features a 21 character by 8 line display. They give instant graphic representation of built-in functions and user generated formulas plus statistical graphs.

GRAPH SCIENTIFIC
These calculators in addition to being programmable provide the facility for data to be presented graphically through the medium of multi-dot matrix - high resolution LCD screens.

Item no 25 features a Table of Values function and both item nos 25 and 26 have a Polar Equation Graphing function.

A GUIDE TO

typewriters & word processors

If you are building up your business, from an office or your home, you will be looking for the latest office equipment. At Argos we now sell a wide range of business equipment, and all at affordable prices. To help you with your choice we have explained some of the features relating to our range of Typewriters and Word Processors.

Typewriter Features

Correction Memory
This enables you to correct up to two lines of current text as if an error is made you can simply relocate and delete it.

Text Memory
This facility allows you to store information/text of varying amounts. This can range from 3 pages of text with a 6K memory to 6 pages of text with a 12K memory capacity.

LCD
Liquid Crystal Display (LCD) allows you to review and edit text easily on screen before printing.

Justification
This allows documents to be produced with the right hand margin blocked as sentences are of equal proportion regardless of the number of words, giving a professional appearance.

Spellcheck
Spelling mistakes can be checked, enabling documents to be free from spelling errors.

Print Speed
This is measured in CPS (characters per second).

Typing Pitch
The pitch designation represents the number of characters that can be typed per inch.

Decimal Tabulation
This facility automatically positions the carriage for alignment of numbers at the decimal point.

Word Processor Features

Word Processors offer all the benefits of an advanced typewriter but with the additional features of larger displays and a bigger memory capacity. The memory of all our Word Processors can also be expanded by the use of an external 3½ inch floppy disk.

Block Copy/Move/Delete
Blocks of text can be copied, moved or deleted to allow simple and quick editing.

Search and Replace
This enables editing of a specific word or phrase throughout a piece of text in one single operation.

Address/Mail Merge
A list of names and addresses can be merged with a letter, this enables you to provide personalised correspondence easily.

"WYSIWYG" -
"WHAT YOU SEE IS WHAT YOU GET". This allows you to see exactly what will print out on paper.

MS Dos File Format Compatability
This allows storage of information in DOS format to enable data exchange with PC's.

Antospell
If a word is mis-spelt this facility provides alternatives and automatically replaces them.

We have a wide range of office equipment for your office or your home, so let Argos take care of it.

Extended Guarantees

For added peace of mind why not take out an Argos 3 or 5 year Extended Guarantee.

A GUIDE TO fax machines

A fax machine needs to be plugged into a new style phone socket and the mains. Some fax machines have an internal fax switch and can direct the incoming call to either the fax or telephone as appropriate, others also allow connection to an answering machine. However, if you have extension phones you will require an external fax switch. This enables the use of the fax with an answering machine and extension phone all on one line.

To help you with your choice, we have identified some key features.

Features Guide

Half Tone Reproduction
produces shades of grey and not just black and white, giving greater clarity for photographs or brochures.

Superfine/Fine Mode
allows for a better reproduction of detailed documents/drawings with the facility for fine print.

Auto Document Feed
lets you set up a number of pages for automatic transmission or copying in sequence.

Activity Report
provides a summary of information transmitted and received.

REN
The maximum Ring Equivalent Number for a phone line is 4. Your equipment may not function correctly if this is exceeded. For telephone features please see page 110.

A GUIDE TO printers

The most common printer used with word processors and PC's is the Dot Matrix. Recently, ink jet printers have become more popular.

Dot Matrix

These printers create an image on the paper using a row of 9 or 24 pins. The pins rapidly strike a ribbon onto the paper. A 24-pin printer is able to create a much smoother outline for letters and graphics since it uses more "dots per inch"

Ink/Bubble Jet Printers

These printers use a non-impact method of printing. An ink jet is activated by a pump, or in the case of Bubble Jet printer, by heat creating steam pressure in the ink tube. This forces the ink onto the paper creating the image with near laser quality print. A key benefit is it prints more quietly.

DPI (Dots Per Inch)

This refers to the density of the print. the higher the DPI, the higher the density of the print.

Variable Print Speed

Variable print speed is measured in CPS (characters per second). The slower the speed, the greater the print definition.

Common terminology:

Draft: Low density, fast printing to check accuracy and initial layout of document.
NLQ: Near Letter Quality.
LQ: Letter Quality.

Buffer Memory

This enables you to store information being transmitted from the PC ready for printing.

Fouts

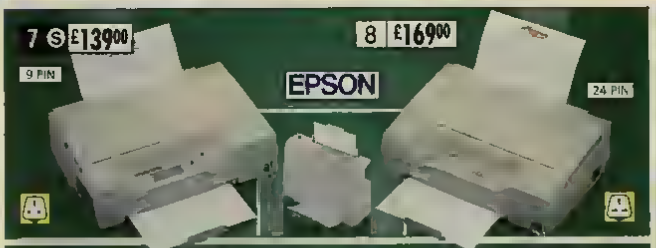

These are different typestyles to enable various presentations of your work.

Friction Feed Facility

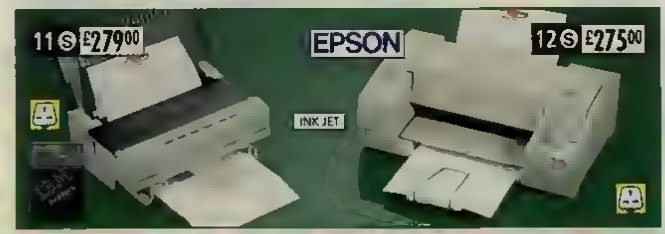

enables you to handle single pages through the printer whereas the Pull Feed Tractor facility handles a continuous supply of paper.

A GUIDE TO computers

If you are looking for a personal computer (PC), Argos now offer a selection to suit your needs. Our range of PCs come pre-loaded with a range of software to enable easy access for your initial applications.

Features

Processing Speed

The speed of the computer is determined by both the processor type and the clock speed. The clock speed is measured in megahertz (MHz), the higher the MHz, the faster the processing.

The Random Access Memory (RAM)

This is the working memory utilised whilst in operation. Information held in the RAM is lost when the computer is switched off, therefore this needs to be stored on hard or floppy disks.

A Hard Disk Drive

This has a high capacity to store information and is located in the system unit.

Memory

Computer memory size is judged by how many bytes of data it can hold, normally measured in megabytes (1 MB = 1 million bytes).

Floppy Disks

These 3½ inch disks enable you to store information externally from the computer. The amount of information that can be stored depends on the size and density of the diskettes.
Argos sell a range of floppy disks which are compatible with all our computers and Word Processors - see page 128 for more details.

TAKING CARE OF YOUR SHAVER

In order to prolong the efficiency/life of your shaver, frequent, thorough cleaning is required in accordance with your manufacturer's instructions. Foils and cutters should be replaced regularly. These are available via our mail order service, please see page 359 for details.

TO GAIN MAXIMUM SHAVING PERFORMANCE

Due to the sensitivity of your skin you should allow approx 2-4 weeks for it to adjust to your chosen shaver.

HAIRDRYERS WITH DIFFUSER ATTACHMENTS
Hairdryers with diffuser attachments are ideal for scrunch drying, or gently drying naturally curly, permed or fine hair. Some models have a pre-set diffuser heat/speed setting. A low heat setting should be selected on all other models, unless otherwise stated in the manufacturer's instructions.

ARE YOU TAKING YOUR APPLIANCE OVERSEAS?
If so this simple guide may help
★ If your appliance has **autonatic or universal voltage** there is no need to make any adjustment.
★ If your appliance has a **dual voltage** switch you will not need to change the setting for European countries, most of which have 220-240 voltage supply systems although an adaptor would be required (see page 401) However if you take your appliance to the USA or Japan, you will need to change to the 110-130 volt setting. Please take great care to switch back to the 220-240 volt setting upon your return to the UK, or other European country

Smoke detectors provide an early warning system setting off an alarm loud enough to waken the family. Smoke and fumes are the major causes of death in house fires with most fatalities occurring at night - once a fire starts you could have as little as 3 minutes to escape.
All Argos smoke detectors comply with the British Standards BS5446 Part 1 and carry the "Kite Mark". Smoke detectors are endorsed by the Fire Authorities. Complete with all instructions, fixings and batteries necessary for use. For any queries about your smoke detector ring the appropriate Helpline during office hours.

CRIMESTOPPERS

HELP STAMP OUT CRIME

Recent Government statistics show that recorded crime is rising at the rate of half a million crimes a year while actual crime may be four times greater than the number of recorded crimes.

Launched in 1988 and totally supported by a charitable trust, Crimestoppers provides a system for anyone to help stamp out crime **IN TOTAL ANONYMITY.** The **0800 555111 FREEPHONE** telephone number is a national number; you don't have to give your name and cash rewards are payable.

As a result of Crimestoppers, 150 arrests and £¼ million stolen goods are recovered every month.

To help you choose the right tools for DIY jobs at home we have explained some of the more common features.

Power Drills and Screwdriver Features

Input Wattage
The power of the motor in your drill is measured by "input wattage". For tough heavy duty jobs, or frequent and prolonged use, a drill with a high rating is important.

Chuck Size
This refers to the diameter of drill bit shank which can be put into the drill.

Speed
Varying materials and hole sizes require different speeds and power.

Single Speed
For straight forward drilling into wood, metal and plastic, a single speed drill may be suitable.

Two Speed
Drills with two speeds allow greater flexibility in drilling through hard or soft materials. A two speed drill will also allow you to select either fast or slow speed measured in RPM (revolutions per minute). The higher the RPM, the faster the rotation of the drill. When drilling into hard materials like masonry, you need to use higher speeds with hammer action.

Variable Speed Drills
For more control and precision a variable speed drill may be suitable. It will allow you to tackle a variety of tasks in different materials and thicknesses with greater accuracy than the two speed drills.
Always read the manufacturers' instructions before using variable or two-speed drills.

Reversing
The drill is able to rotate in the opposite direction to normal. This is handy for screwdriving or removing a sticking drill bit.

Hammer Action
For tough jobs like masonry or concrete drilling. A drill with a hammer action literally "hammers" the drill bit into the wall (thousands of times a minute), as well as rotating it.

Torque Speed
Drills with torque control continuously monitor the "resistance" to the drill bit. This means that if you suddenly encounter an impenetrable area, the drill will stop rather than risk damage to itself. Torque control is particularly useful if you intend using your drill as a screwdriver as it "feels" the resistance of the screw and prevents over tightening.

POWER DRILLS SAFETY TIPS

In conjunction with ROSPA* the Royal Society for the Prevention of Accidents, we have put together the following safety advice.

- ▲ Always read and follow the manufacturer's instructions before starting work. If you lend equipment, make sure that the user reads the instructions for reference.
- ▲ Always fit a residual current device (RCD) to the electric socket and test it before using a power tool. This disconnects the electric circuit if there is a fault (order Cat. No. 982/1321).
- ▲ Wear safety goggles for DIY activities.
- ▲ Unplug the drill before fitting bits and use good quality sharp bits in the drill, making sure they are secured firmly in the chuck.
- ▲ Don't leave cables trailing over the edge of the work surface. When the job is finished, put the drill away.

So whatever your DIY needs are, Argos takes care of it.

A GUIDE TO cordless power tools

Buying the right tools for the job can be the key to successful DIY.

As cordless drills and screwdrivers have rechargeable batteries and no extension leads, they can operate at any distance from a mains supply. Cordless drills can still be used to drill holes in wood, metal, plastic and masonry if they have a hammer action facility. Those featured with variable speed and reverse can also act as a screwdriver.

Cordless Drill and Screwdriver Features

Voltage
The higher the voltage of a battery the more power the drill has for tougher jobs.

Trickle Charge
The batteries are charged slowly while the tool is not in use (ie overnight). They can be left on continuous charge with no harm to the batteries, so the tool is always ready to use.

Fast Charge
The batteries can be charged in approximately one to three hours depending on specification (but cannot be left on charge permanently).

Spindle Lock
Spindle lock allows a powered screwdriver to be used as a conventional hand screwdriver, particularly useful for exceptionally tough screws.

Removable Battery
A rechargeable, removable battery allows greater flexibility and continuous use, as a second battery can be charged whilst the drill is in use.

HELPLINES
For any queries about your drill ring the appropriate telephone number during normal office hours.

A GUIDE TO cameras

Most cameras are fitted with additional features to give greater flexibility when taking photographs. Some key features are explained below.

Features Guide

Flash
A Built-in flash works directly off the camera batteries and is usually effective for up to 15 feet. A low light indicator shows when to turn the flash on.
An Auto/Sensor flash will work automatically when there is insufficient light.
On some cameras, a sensor flash can be turned off for atmospheric shots, or used as "fill-in" flash when the subject is in the shade or against a bright background.
Red-Eye Reduction utilises a pre-flash to contract the subject's pupils to avoid "red-eyes".

Motor Drives
Motorized load winds the film to the first frame automatically or by pressing the shutter release button. After each shot, **motorized advance** automatically winds the film onto the next frame. At the end of the film, **motorized rewind** will rewind the film ready to take out.

Auto Focus/ Focus Lock
Basic cameras have a fixed focus, which does not vary with subject distance. Cameras with auto focus automatically focus on the subject in the centre of the viewfinder. "Focus lock" allows you to focus on your subject and then recompose the shot, still holding your subject in focus.

Auto Exposure
The shutter speed automatically adjusts to give the right exposure for the existing light conditions. On more sophisticated cameras, a **backlight compensation** facility allows for bright backgrounds such as snow or sand.

Zoom Lens
This allows you to bring the subject closer and frame the shot as required without having to move. The bigger the zoom (measured in millimetres) the nearer the image, and so the larger it will appear.

Twin Lens
This enables you to choose between normal or a close-up shot depending on how you wish to frame the subject.

Macro Facility
This allows you to take clear, focused close-up shots.

Infinity
This feature is used when taking long distance shots or for shooting through glass with an auto focus camera.

DX Coding
The camera will automatically adjust to the speed of film you are using.

Self Timer
This enables you to set the camera to take a photograph approx 7 seconds later, so that you can be in the shot as well. A dual self timer takes two pictures in succession whilst a special multi-frame self timer allows you to take up to four consecutive shots.

LCD Panels
This shows the current function status, eg selected flash, focus mode, battery level, and number of pictures taken.

Data Back
This allows the option of data to be printed on the face of your photograph enabling you to remember when the picture was taken and is available in two forms:
1. **A manual** data back will print the month and year if required.
2. **A quartz** data back offers a clock facility with LCD display and will print time/dey/month/ year if required.

Panoramic
This facility produces special "stretch" prints to create incredible scenic views or artistic compositions. These cameras either utilise an adaptor which is inserted prior to loading the film, in which case the whole film must be shot in panoramic mode, or a switch mechanism which will allow for shots to be mixed on the same film.
NB.Films containing mixed exposures will incur additional processing cost and we recommend that you advise the processor before having the film developed.

A GUIDE TO camcorders

A camcorder allows you to capture action in sound and vision. It gives high quality home video recordings and has a wide range of features to give you greater flexibility. To help you choose, our guide below explains some of the technical terms and features.

Tape Formats

There are 2 camcorder formats, using different types of tape.

8mm tape is a small cassette which gives up to 90 minutes recording, or 3 hours with long play. Tapes are played back by plugging the camcorder directly into your TV or video recorder using the leads supplied. Recordings can be edited onto VHS tape via a video recorder.

VHS-C is a compact tape which can be played in your VHS video recorder, using the special adaptor supplied with all of our VHS-C camcorders. They give up to 45 minutes of recording, which can be extended to 90 minutes with a long play facility.

VHS-C tapes can also be played back by connecting the camcorder directly into a TV or video recorder 21 pin SCART socket. If you do not have a video recorder or 21 pin socket TV, you will need to buy an RF lead and adaptor - available from Argos Mail Order Services (telephone 061 927 7298 or ask in-store for details).

Features Guide

Power Zoom
This gives a smooth zoom-in action for close-up shots. The greater the zoom, the greater the magnification.

Full Range Anto Focus
This ensures that the subject stays in focus, no matter how close or far away.

Intelligent Auto Iris
The auto focus facility works through the lens to give clearer shots and a better colour balance.

Macro
A macro facility allows clear and focused close-up recordings.

Shutter Speed
A variable shutter speed allows slower speeds in low light conditions, whilst a high speed shutter gives clear shots for high speed action.

Lux Illumination
The lower the lux minimum illumination, the lower the light conditions in which the camcorder can still effectively record.

Fader
This allows you to smoothly fade in and out of different shots.

Flying Erase Head
When recording over old scenes this gives a cleaner transition from old to new recordings.

Title Memory
Title or dates can be superimposed onto recordings as a permanent reminder.

Age Insert
By entering your child's birth date, you can have an on-screen display of their age on future recordings.

Edit/Camera Search
Previous recordings can be viewed through the camcorder for editing or to find the correct position to resume recording.

Long Play/Record
This feature allows you to record and play back for twice the normal time, ie 3 hours on a 90 minute tape.

Insert Edit
This allows a new recording to be inserted between existing scenes.

Infra-Red Remote Control
This allows you to operate the playback features of your camcorder from the comfort of your armchair.

HELPLINES

For any queries about your camcorder please ring the appropriate helpline during office hours.

TELEVISION SIZES

Television sets have always been described by the nominal size of the glass tube across its greater diagonal The figures shown in brackets e g (V34cm) refer to the actual viewable picture diagonal.

Reception Difficulties - A good TV aerial, correctly positioned, will reduce reception problems of noise and reflection. A signal booster will amplify weak signals or supply several TV sets from one aerial However, a signal booster without a good aerial will not always solve local reception problems.

A GUIDE TO televisions

If you are looking for a large screen or portable television, Argos has a wide range for you to choose from with a variety of features.

Features Guide

FST
This stands for "flatter squarer tube", which gives you improved definition, a wider viewing angle and less light reflection.

Teletext/Fastext
This gives you up to date information on a wide range of subjects such as travel, news, sports and television programming. Teletext also gives subtitles on selected television programmes.
Fastext is an updated system to give you quicker access to your chosen page of information.

SCART Socket
SCART leads can be used to connect your television to your VCR, audio system or satellite receiver dish. They can also be used to connect your Camcorder to the TV to play back recordings.

Sleep & Wake-up Timers
Particularly useful if you want to watch television in the bedroom, you can programme the timer to switch the television set to standby automatically, after you have fallen asleep. A wake up timer also acts as an alarm clock.

On Screen Display
A visual display on the TV screen will show which channel you have turned to, or any adjustments to the volume or colour.

NICAM
NICAM is a high quality digital audio signal which is transmitted simultaneously with television pictures, giving a similar sound quality to compact disc.
To receive the stereo NICAM signal a television or video must incorporate a NICAM receiver which picks up the signal through your existing TV aerial.
A NICAM video recording must then be replayed through a NICAM or Stereo TV to maintain the stereo sound.

Extended Guarantees

All our televisions have a 1 or 2 year manufacturer's guarantee, but for added peace of mind you can buy an Argos 3 or 5 year Extended Guarantee. We also offer Free Accidental Damage Cover. See page 493 for details.

Argos Personal Account

Spread the cost of a new television with an Argos Personal Account. See page 2 for details.

HELPLINES

A GUIDE TO video recorders

All our VCR's allow you to record one programme whilst watching another. We also sell video players for watching pre-recorded videos, which cannot be used for recording.

Programming

VCR's are programmed to record by using a remote control handset. Many have a visual LCD panel on the handset or an on-screen display showing the details entered.

Event Timer

You can programme most VCR's to record a number of events over a period of weeks.

Twin Speed

A twin speed (or "long play") facility allows the VCR to record and then play back at half the usual operating speed. The on-screen image appears as usual, but the recording time of a tape is effectively doubled. This gives 8 hours of recording on a 4 hour tape, however the quality of the recording may not be quite as good as when recorded at normal speed.

NICAM

NICAM is a high quality stereo sound signal. To receive the stereo signal, NICAM televisions and VCR's incorporate a NICAM receiver which picks up the signal through your existing TV aerial. A NICAM video recording must then be replayed through a NICAM or Stereo TV to maintain the stereo sound

Extended Guarantee

All our VCR's have a 1-year manufacturer's guarantee, but for added peace of mind you can also take out an Argos 3 or 5 year Extended Guarantee.

We also offer FREE ACCIDENTAL DAMAGE COVER. See page 493 for details.

7. VIDEO PLUS+ Programming your video made easier. Every day next to the TV programmes in most national newspapers, "Radio Times", "TV Times", "What's On TV" and "TV Quick", will be Video Plus Code™ numbers. Simply tap the code number of the programme you want to record into the Video Plus handset, press the appropriate button to set once daily or weekly and it will tell your video what to record. Video Plus stores up to 14 programme selections and works with virtually all videos and satellite receivers which have an infra red remote control

A GUIDE TO audio features

To help you choose, we have explained some of the technical terms.

Features Guide

Digital Tuners
Phase Lock Loop (PLL) digital tuners seek out stations by searching the whole waveband automatically for the next strongest signal.

Pre-set Buttons
Your favourite stations can be recorded in the memory, and then recalled at a touch of a button.

Dolby 'B' & 'C'+
Dolby is a noise reduction facility that reduces the hiss when tapes are played, especially on "quiet" music. Dolby 'C' is the enhanced version of Dolby 'B', giving even clearer sound reproduction.

Relay Play
This allows the second tape on a twin tape deck to automatically take over when tape one has finished.

Auto Reverse
When your tape has finished, the cassette player automatically plays the other side.

High Speed Dubbing*
On twin tape decks, this allows faster tape copying usually at twice normal speed.

Graphic Equalisers
This allows you to "shape" the tone of the music being played by increasing or fading particular sounds.
The greater the number of bands, the more precise the equaliser

Spectrum Analyser
This provides a visual display of the sound level in the form of "dancing lights", enabling you to make fine adjustments to sound and tone levels.

Compact Disc
Compact discs, or CD's provide the most accurate sound reproduction available.
On CD midi systems, a search button allows you to select which tracks you want to hear. A memory facility allows you to programme a sequence of tracks in any order.

Turntables
Belt driven decks ensure a constant rotational speed.
Fully automatic decks place the stylus on the record for you, and return it after the record ends.
Semi automatic decks only return the stylus, you have to place it on the record.

Speakers
Within each speaker is a series of either 2 or 3 cones (known as "2 way" and "3 way" speakers). 3 way speakers usually give a better quality of sound.
Active speakers for use with personal CD's and stereos have their own power source to further amplify the sound.

Music Output
The higher the number of watts the greater the capacity of the amplifier and the louder the sound will be. 2 x 20 watts music power means that there are 2 speakers with a maximum music output of 20 watts per speaker. Manufacturers generally express the potential maximum volume in one of three terms:
As a comparison
1w RMS = 2w MPO = 4w PMPO

* The recording and playback of certain material may only be possible by permission. Please refer to the Copyright Designs and Patents Act 1988 and the Performers Protection Acts 1958-72.

+ Dolby is a TRADEMARK of Dolby Laboratories Licensing Corporation.

GREAT VALUE ON

extended guarantees

The following guarantees do not affect your statutory rights.

At Argos, our aim is to offer you high quality, reliable products - all of which carry a manufacturer's guarantee of at least 1 year.
However, for added reassurance we also offer 3 and 5 year Extended Guarantees at low, low prices. So now, at an affordable price, you can insure against possible repair costs after the manufacturer's guarantee has expired.
Underwritten by Cornhill Insurance PLC, our Extended Guarantees cover both parts and labour costs of faults arising due to faulty workmanship or materials used in manufacture.
A 3 year guarantee extends the manufacturer's guarantee (usually 1 year) to a total of 3 years from the date of purchase.
A 5 year guarantee extends cover to a total of 5 years from the date of purchase. Our full range of Extended Guarantees is shown in the table below.

How to buy your Extended Guarantee

Buying an Extended Guarantee is simple, and can be done at the same time as buying any other Argos product.

1. Fill in the appropriate catalogue number on a selection form.
2. Take the form to a cashier.
3. After paying, you will be directed to the collection counter where a member of staff will take all the necessary details to complete your insurance cover.
4. You will then be given a copy of the agreement to keep. This will also tell you what to do if you need to make a claim.

Please note that you must purchase Extended Guarantee cover within 30 days of purchasing the item to be covered. If you have any queries about your insurance cover, please use the Cornhill Insurance helpline 0892 515414 during normal office hours.
Unfortunately we cannot insure items for commercial use. Please ask in-store for full terms and conditions.

PLUS FREE ACCIDENTAL DAMAGE COVER

We also offer FREE first year accidental damage cover on all the items shown below, except camcorders. To apply simply pick up a leaflet in-store.
If you do buy an Extended Guarantee, then we will automatically include the free accidental damage cover.

A GUIDE TO car audio

We sell a wide range of car stereos. Many of the functions are similar to those on other hi-fi equipment, additional features include:

Fader

On 4-speaker systems you can adjust the sound balance between the front and back speakers.

Auto Seek Tuning

The radio automatically seeks out the next strongest signal on a waveband.

Radio Data Systems (RDS)

RDS displays the station name and maintains your chosen station automatically when travelling through different reception areas.

Extended Other Network (EON)

If your unit incorporates EON, then when traffic information is broadcast, this can automatically interrupt your listening with travel bulletins.

Extractable Units

Some units are designed to be easily removed when you leave your car and then on return simply slot into place for play.

Please note, there are 2 sizes of car radio/cassettes. The latest, DIN E, will fit most cars built after 1983. DIN D will fit almost every car. Post 1983 models may require an adaptor plate. Please refer to your vehicle specification manual.

A GUIDE TO child safety

At Argos we sell a wide range of safety products which can help give you that extra reassurance and peace of mind.

Safety in the Home

The following pages show some essential items which can help you make your home safe for baby. We have drawn up some key points in conjunction with ROSPA, the Royal Society for Prevention of Accidents.

- Fit a safety gate at the top and bottom of the stairs and keep stairs and landings clear of toys.
- Use a baby monitor to keep in touch with your child around the home.
- Use a fireguard securely fixed to the wall wherever you have a gas, electric or open fire.
- Make sure the side of the cot is securely fixed when your child sleeps and use a ventilated mattress.

Safety in the Car

When travelling by car there are certain points you need to remember to make sure the drive is safe as well as comfortable for your child.

- Check the car seat is correct for the age and weight of your child.
- Always read the manufacturer's leaflet as your child's safety depends on correct installation.
- Check the car seat harnesses each time you travel to ensure your child's comfort and security.

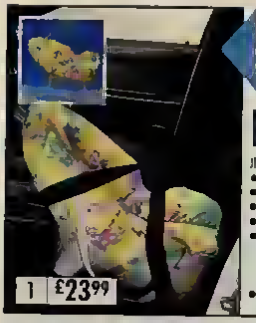

There is a wide range of car seats which fit most car models on the following pages. Some car seats may require fixing kits - check with your local dealer prior to fitting.

Buying Toys

As your toddler begins to develop, there are a whole range of toys to buy. By following some key points you can make sure playtime is great fun for them as well as being safe.

- Always read the manufacturer's leaflet and retain for future reference.
- Make sure the toy is right for the child's age and ability - check the age recommendation before you buy.
- Keep older children's toys out of reach of young children and babies.

PUSHCHAIR DO'S AND DON'TS

DON'T: Carry additional children in/on pushchair. Hang shopping from handles or carry shopping in locations other than the shopping tray provided. Leave child unattended in pushchair. Allow child to operate your pushchair or use it as a toy. Machine wash pushchair seat unless it is advised in the instruction leaflet. Force pushchair into folded position - refer to the instruction leaflet if any difficulty.

DO: Ensure pushchair is correctly erected with primary latches in place before use. Return seat to the correct position, parallel to the handle (where appropriate) before folding. Ensure child wears a safety harness correctly fitted/adjusted. Ensure that child (and any other nearby children) are clear of moving parts before making any adjustments/folding or unfolding. Take care when loading pushchair into a car boot that it is not crushed. Check regularly that all joints, fittings, straps and catches etc., are secure/in full working order.

The Lion Mark is a symbol of Toy Safety and all Argos toys are tested for compliance with exactly the same approved safety standard. Always choose toys that suit the age and ability of your child.

SAFETY

Filling material(s) and covering fabric(s) meet the requirements for resistance to cigarette and match ignition in the 1988 Furniture and Furnishings (Fire) (Safety) Regulations.

Due to the nature of Ni-Cad rechargeable batteries it is possible that the first charge from new will not produce 100% capacity and may give less running time than future charges. Optimum performance is often obtained from the battery after the 3rd or 4th charge.

Batteries are not supplied unless otherwise stated.

Argos

Over 300 Stores Nationwide

We have two types of Argos stores, "Traditional" and "Superstore" – each has its own special catalogue containing a different number of products

- The Traditional catalogue contains over 4,000 top quality products for you to choose from.
- The Superstore catalogue is where we have combined our normal Traditional range with an extra 2 600 products exclusive to our Superstores

Superstore Delivery Service

If you live within 20 miles of a Superstore you can order goods through our Superstore Delivery Service

See page 3 for details
